PROFIL

I am a Bachelor of Information Systems graduate from Gunadarma University with a GPA of 3.35. During college I actively participated in SQL database training and web programming. Currently I have a very big interest in working in the field of backend developers, to support this interest I took fullstack NodeJs training so that I understand the flow of making websites in terms of frontend, backend and database. In operation on the backend side I use Node.js with the Express framework, on the frontend side I use Ejs and from the database side I use PostgreSql with ORM sequelize. With these skills, I am ready to work as a beginner backend web developer or something similar.

EDUCATION

2017 - 2021
SISTEM INFORMASI
Universitas Gunadarma
IPK : 3.35 / 4.00

CERTIFICATE

Full Stack MS.Excel Basic To Advance | **MySkill** | February 7 – March 14, 2023

Conditional if else, data Validation, data Visualisasi, Vlookup, Index Match, Pivot Table, Power Pivot

https://drive.google.com/file/d/1T-C_txsy8tbDfI42mPEoIPV3rL3P_CZW/view?usp=sharing

Full Stack NodeJs | **Code academy** | February 15 – May 30, 2022

• created MineGame and MovieTheater terminal apps with oop

• Create Backend with express and orm sequelize like DML (Create, Read, Update, Delete)

• Create a frontend with Ejs
